ASTONISHING RESULTS.

Follow Each New Discovery of Science.

The great strides that medical science has made in the last few years is due to the germ theory. When the germ of a disease has been discovered, the doctors have not been slow in finding a drug to kill it. In a few years, it will be rare to find a bald-headed man or woman. The falling out of hair is due to a dandruff germ, and now it has been discovered how to kill this germ. The remedy used is called Newbro's Herpicide. Its success has been so far reported. It is also a delightful hair dressing free from oil or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists.
